Sing in/up page

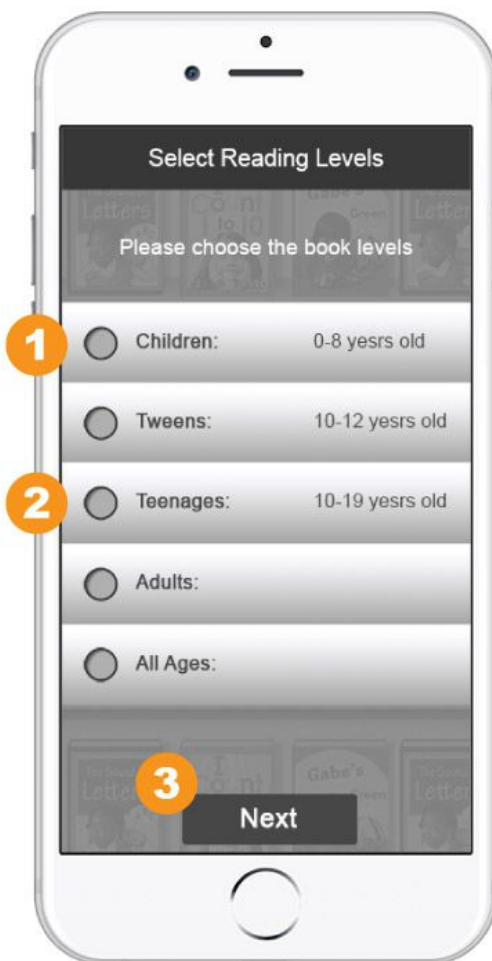

Sing in page

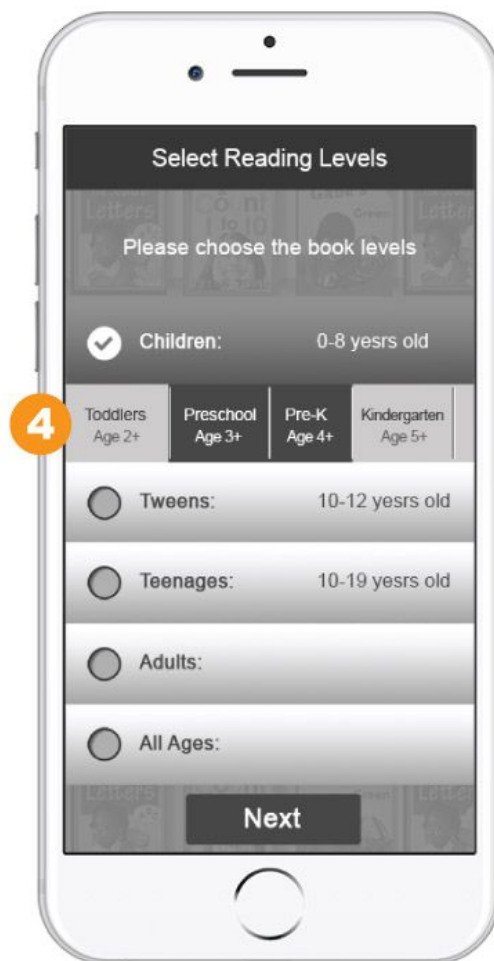

- 1 Sign up button, tap on the button to start the registration process.
- 2 Log in text button, tap on the button to go to the login page.
- 3 Browse as a guest text link. Tap on the link will jump to the app's main screen. Guest users can browse content only.

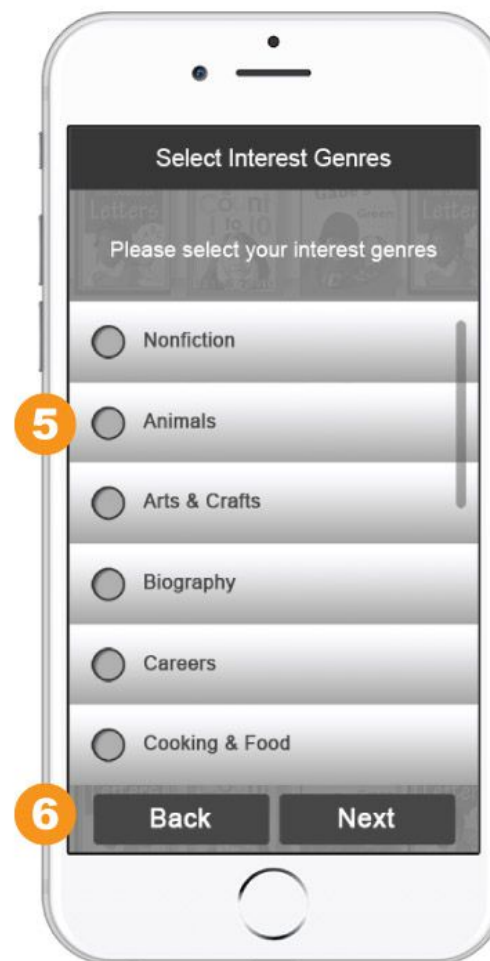

Reading level setting

Child-specific level selections

Normal interest genre selections

Child's interest genre selections

**1** Children's level check section. The detail level selections will slide out when you tap on the bar.

**2** Level selections: Users can select multiple levels for the content.

**3** Next button, tap on the button to submit the settings. The button will be inactivated until at least one level is selected.

**4** Child detail reading levels. Tap to select or un-select the level.

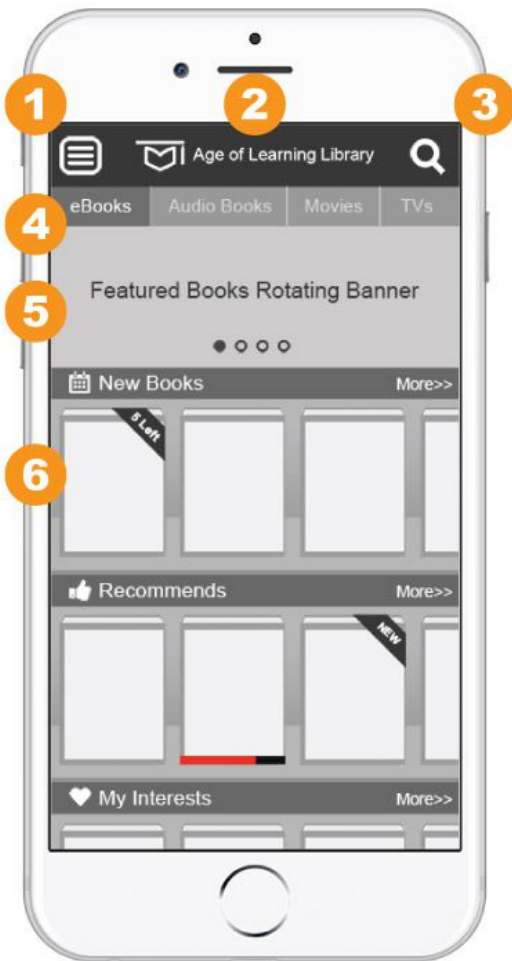

**5** Normal interests genre selections. Tap on the bar to select the genre.

**6** Back button: Tap on the button to return to the previous page.

**7** Children's interest genres. If users select the children's books level, children's interest genres will be available.

**8** Done button, tap the button to submit the settings, and go to the app main screen.

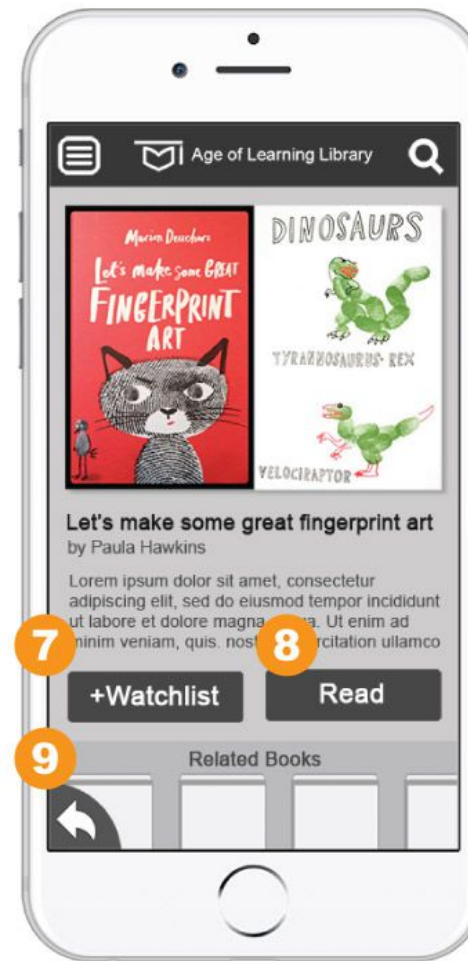

App main (home) screen

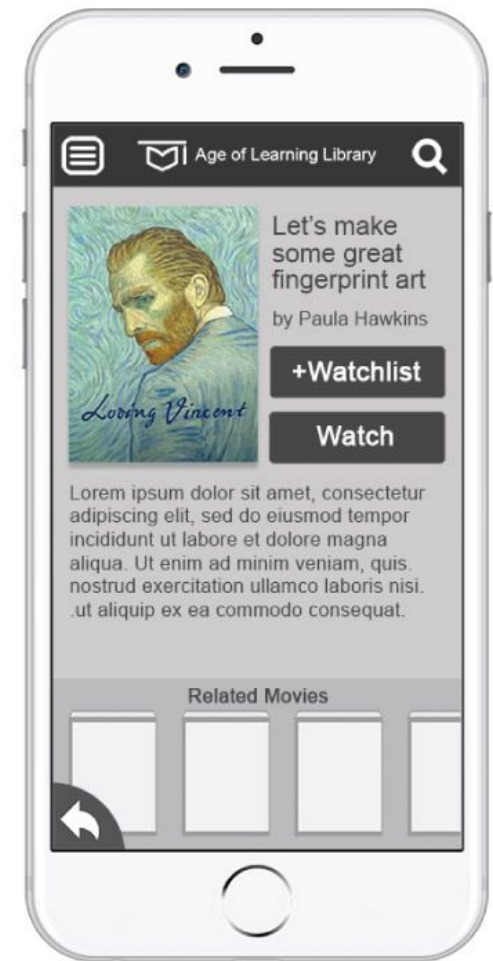

Category (more) screen

eBook (audiobook) detail screen

Movie detail screen

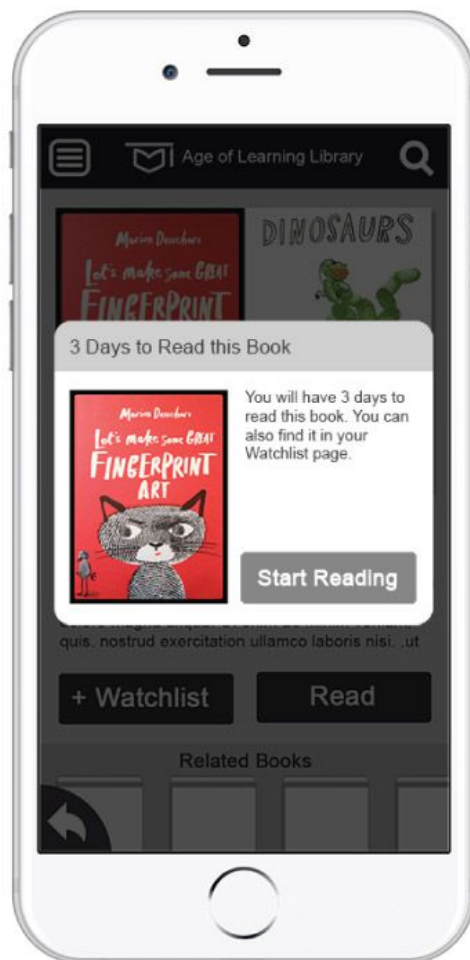

- 1 Side-Mune icon: tap on the icon to open the side menu screen.
- 2 App logo: Tap on the logo anywhere will bring the users back to the main (home) screen.
- 3 Search icon: Tap on the icon will load the search screen.
- 4 Content main category. Users can switch displayed content for eBooks, Audiobooks, Movies, and TVs.
- 5 Featured media rotating banner: Will display featured media banners.
- 6 Rows for specific contents. Tap on the book/movie thumbnail to go to the detail page.

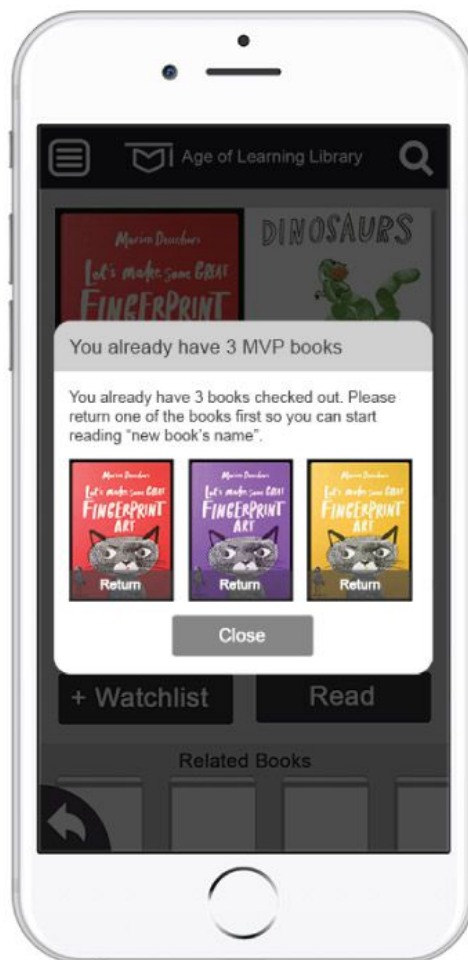

- 7 Watchlist button: Tap on the button to add the book to My Watchlist section.
- 8 Read button: Tap on the button to load the book player.
- 9 Back button: Tap on the button to return to the previous/upper page.

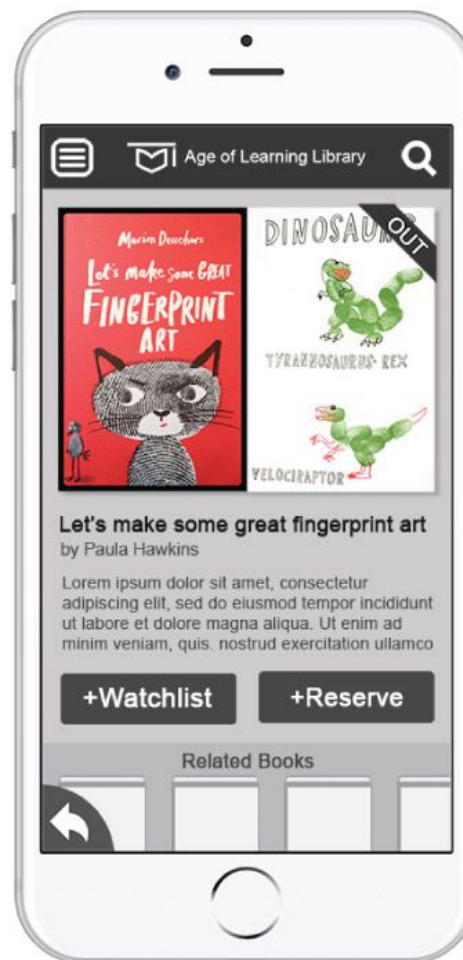

3 Days reading reminder

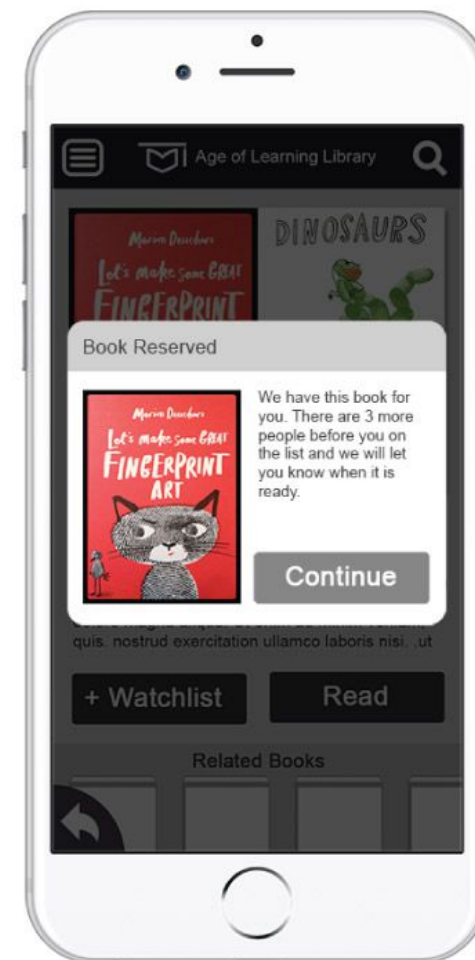

Return first pop

Out of books status

Reserved book pop

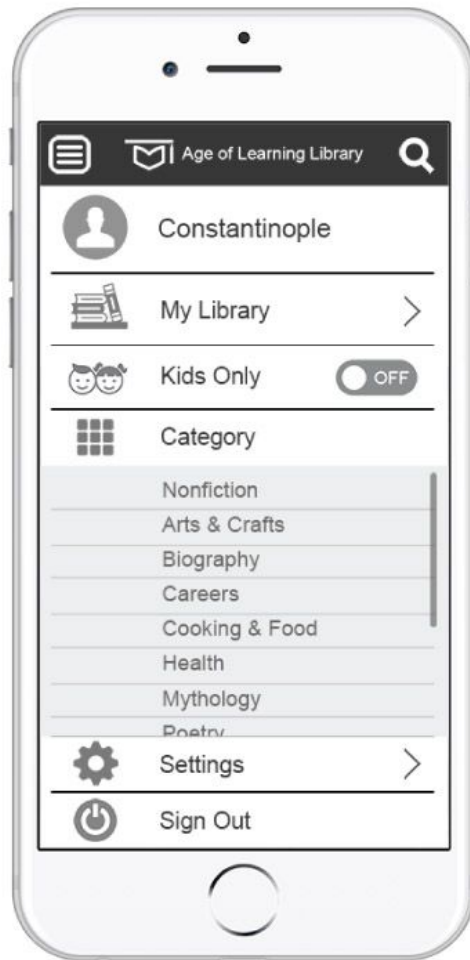

For licensed books, when users tap on the Read button, this popup will be displayed to remind users that they will have # of days to read the book.

Users will have a limited number of books they can read at once. If the users have reached the limit and still want to read another book, this popup will appear. Users can tap on the book they wish to return or the Close button to leave the popup.

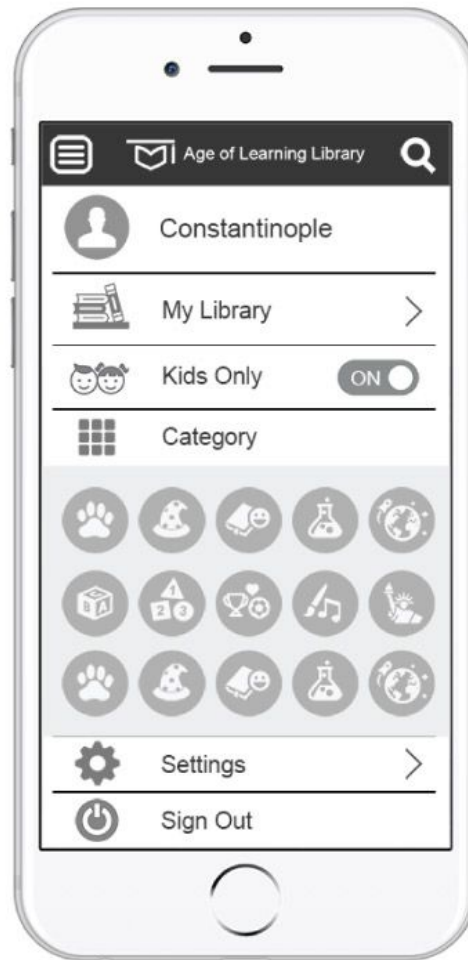

When the book is currently out of copies, there will be a label to indicate the status. The Read button will be replaced with the "+Reserve" button. Users can tap on the button to reserve the book.

Book reserved confirmation popup.

Side-Menu (kids only Off)

Side-Menu (kids only On)

My Library section

Users can tap the hamburger menu icon (top left corner) to open/close this side menu. The menu will include the following:

1. User's profile
2. My library link
3. Kids Only switcher
4. Content category
5. Settings link
6. Sign out button

Users can turn on the Kids Only mode to filter all kids-appropriate content (based on the onboarding settings). The text list of the category will switch to the kids category with icons.

My library will be a section where users can quickly access and manage the books they borrowed, read, reserved, or been added to the watchlist.

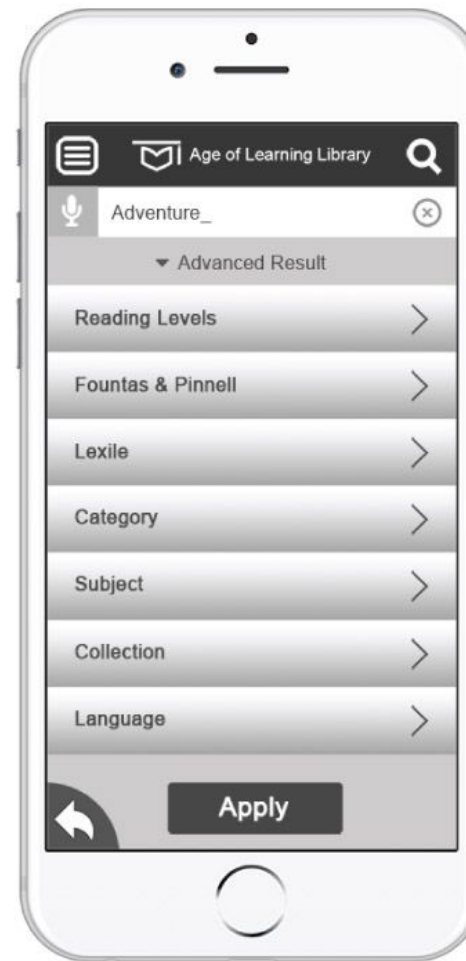

Search Main Screen

When tapping on the search icon, this screen will be displayed.

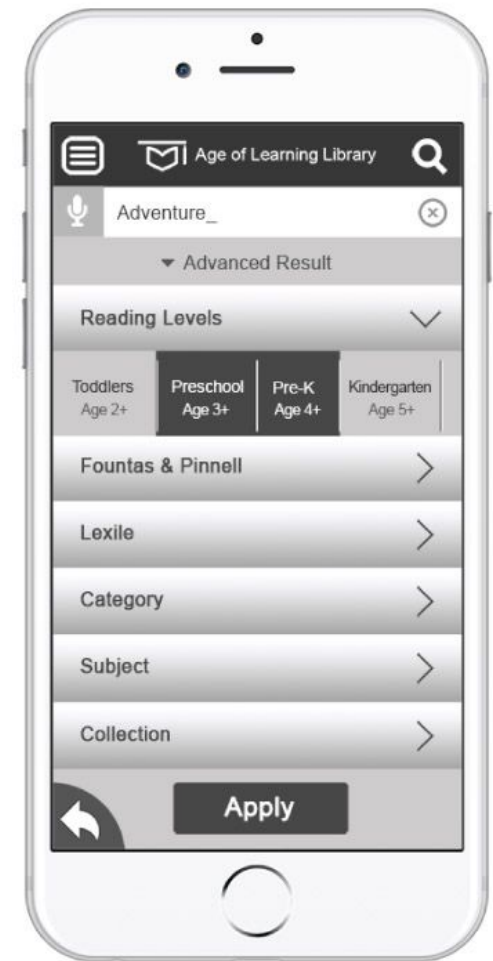

- 1 Search icon: Tap on the icon to go to the search screen.
- 2 Voice search icon: tap on the icon to record the voice for the search keyword.
- 3 Search field & "X" button, tap on the area to input keyword. Tap on the "X" icon to remove the keyword.
- 4 Advanced Search tab, tap on the bar to open the Advanced search filters.
- 5 Search result category: Users can tap the Category to browse search results from eBooks, Audiobooks, Movies, and TVs.
- 6 Search result display area.

Advanced Search On

The filter list will slide down when tapping on the Advanced search tab. Users can tap on the tab again to close the list without applying the filters. Tap on the Apply button will close the list and apply the filters to the search result.

Advanced Search sub-filters

When users tap on one of the filters, the detail filter options will be slid out underneath. Tap on the options to select the filter.

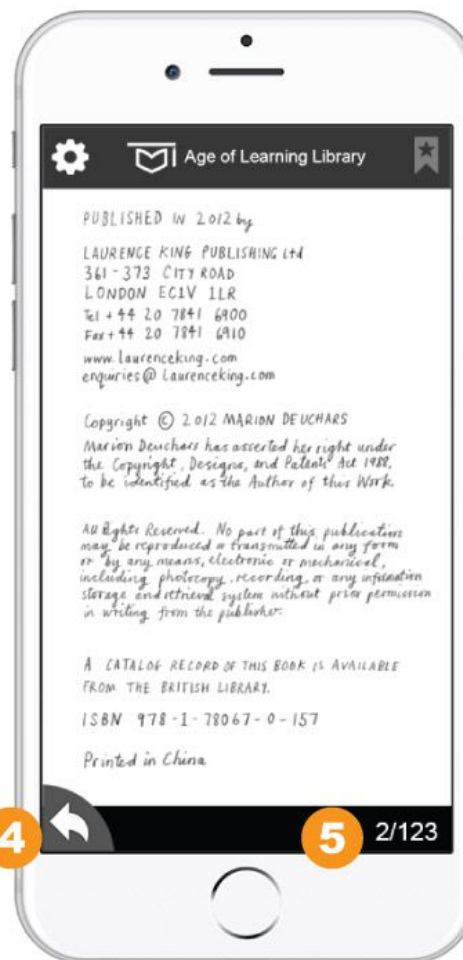

Book List screen

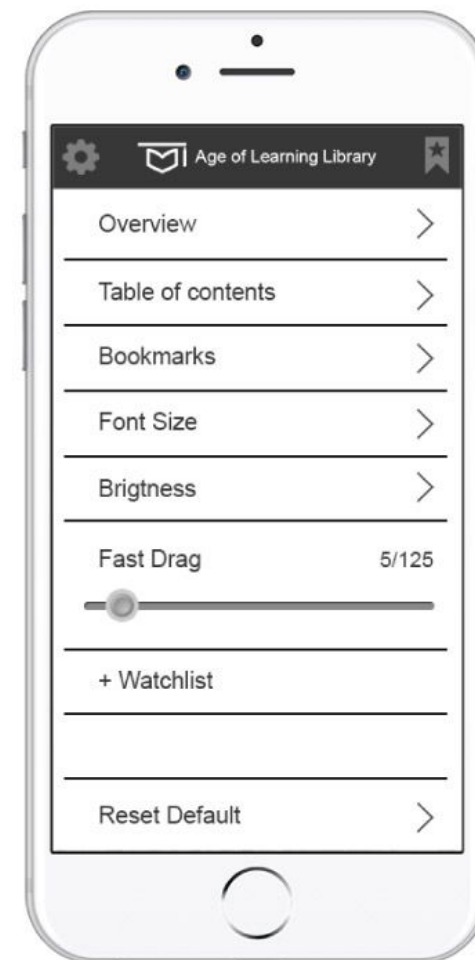

Book Reader - Book Cover

Book Reader - Second page

Book Setting menu

When users tap on a currently available book, instead of displaying the book's detail screen, the reader will launch directly.

- 1** Setting icon: Tap on the icon to launch the settings menu.
- 2** Bookmark icon: Tap on the icon to add a bookmark to the page.
- 3** Book display area.

- 4** Back button: Tap the button to close the book reader and return to the previous page.
- 5** Book pagination: This will display the current page number and the total page number.

Users can open the menu to access the following settings:

- 1. Overview, book description
- 2. Table of contents
- 3. Bookmarks
- 4. Font Size
- 5. Brightness
- 6. Fast Drag (for pages)
- 7. + Watchlist
- 8. Reset Default.
